

Day One: Friday 17 March 2017

- 08:50** Welcome and introduction *Per Soelberg Sørensen*
- 09:00** **Keynote lecture**
Five years of Multiple Sclerosis Management: Highlights and unmet needs of relapsing-remitting multiple sclerosis *Per Soelberg Sørensen*
- Plenary session 1: Informed decisions**
- 09:30** Speaking the same language *Mar Tintoré*
- 09:50** Understanding the burden *Sven Schippling*
- 10:10** Charting the course *Ludwig Kappos*
- 10:30** Panel discussion
- 10:50** *Break*
- 11:20** **Workshop session 1** (see last page)
- 12:20** **Workshop session 2** (see last page)
- 13:10** *Lunch*
- Plenary session 2: Clinical challenges**
- 14:40** Case 1: Infections in multiple sclerosis *Tjalf Ziemssen*
- 15:00** Case 2: Multiple sclerosis in pregnancy *Kerstin Hellwig*
- 15:20** Case 3: Multiple sclerosis and cognitive impairment *John DeLuca*
- 15:40** Case 4: Paediatric multiple sclerosis *Angelo Ghezzi*
- 16:00** Panel discussion
- 16:25** **Guest lecture**
How can 'big data' help us understand the patient perspective? *Ido Hadari*
- 16:50** Close of Day One
- 18:45** Departure for dinner

Please note that the programme is not final and may be subject to minor change without prior notice.

Day Two: Saturday 18 March 2017

Plenary session 3: Tailored therapy

- 08:30** Induction versus escalation therapy: Choosing an approach that fits your patient *Giancarlo Comi*
- 09:00** Therapeutic developments in relapsing-remitting multiple sclerosis: New molecular targets and agents *Eva Havrdová*
- 09:30** Panel discussion
- 09:50** *Break*
- 10:05** **Workshop session 3** (see last page)
- 11:05** **Workshop session 4** (see last page)

Plenary session 4: New horizons

- 12:05** Neurophysiological and optical coherence tomography markers in monitoring multiple sclerosis *Letizia Leocani*
- 12:25** What's new in progressive multiple sclerosis? *Finn Sellebjerg*
- 12:45** Ask the expert: Panel discussion *Selected faculty, moderated by Per Soelberg Sørensen*
- 13:15** Summary and meeting close

Workshops

Delegates will have the opportunity to attend four small-group interactive workshops on a first-come, first-served basis.

Workshop topics

- Neuro-ophthalmic manifestations of multiple sclerosis
- Responsible use of multiple sclerosis therapies
- Responsible use of multiple sclerosis therapies
- Responsible use of multiple sclerosis therapies
- Therapeutic options for progressive disease
- Treatment in pregnancy
- Paediatric multiple sclerosis
- Treat to target
- Motor symptoms/rehabilitation
- Cognitive rehabilitation
- Patient communication
- Imaging
- Running a virtual multiple sclerosis clinic
- What can we learn from multiple sclerosis registries?
